

## Green Job Career Track:

### Educational Courses and Programs in Nebraska

Green Jobs Programs and Courses*	ACT	Association of Energy Engineers	Association of General Contractors	International Brotherhood of Electrical Workers	Central Community College	Insulators & Asbestos Workers Union 39	Iron Workers Local 21	Laborers Local 1140	Little Priest Tribal College	Local Plumbers Union 16	Local Sheet Metal Union 3	Mechanical Contractors Association Omaha	Metropolitan Community College	Mid-Plains Community College	National Association of Homebuilders	National Association of Realtors	National Joint Apprenticeship and Training Council	National Safety Council	Northwest Community College	Southeast Community College	Steamfitters & Plumbers Union 464	United States Green Building Council	University of Nebraska - Lincoln	Western Nebraska Community College	
Renewable Energy Course																									
Biofuels Plant Safety																				•					
Biofuel Production Operations																				•					
Solar Photovoltaic Systems																				•					
Energy Efficiency Course																									
BPI Certification Prep				•																•					
Energy Performance Standards																									
Energy Star, Commercial													•								•				
Geo-Thermal Systems																					•				
Green Building Craft Training																				•					
Green Pumps, Fans, and Blowers																				•					
Heat Pumps																					•				
HERS Rater													•												
Infrared Thermography																				•					
Optimized Energy Performance				•																					
Water Efficiency & Reduction Systems										•											•				
Supporting Course																									
Deconstruction																					•				
Green Realtor/Appraiser Certification																•									
Industrial & Commercial Trades				•																	•				
Natural Gas Plant Operations																					•				
Principles of Green Buildings																				•					
Welding Technology																					•				
Pre-Vocational Course																									
Basic Math	•																				•				
Basic Science	•																				•				
Employability Skills													•												
Renewable Energy Careers Orientation																					•				
Energy Efficiency Program																									
Air Conditioning, Refrigeration & Heating Technology					•						•	•	•	•					•	•	•				
BPI Certificate													•												
Certified Energy Manager		•																							
Certified Green Supply Chain Professional																				•					
Certified Sustainability/Green Building Professional																•				•					
Insulation							•																		
LEED Professional			•																			•			
Weatherization						•		•					•	•					•	•	•			•	
Renewable Energy Program																									
Electrical Engineering Energy and Power Option																							•		
Energy Generation Operations																				•					
Renewable Energy Certificate				•			•	•																	
Renewable Fuels Technology																									
Solar Photovoltaic Systems				•									•							•					
Solar Energy													•												
Solar Heating and Cooling													•												
Wind Energy Technician				•									•							•				•	
Wind (Urban)													•												
Supporting Program																									
Architectural Design Technology													•	•											
Building Maintenance													•												
Certified Indoor Air/Environmental Quality Manager																				•					
Construction Management					•																				
Construction Technology					•								•	•					•	•					
Electrical Apprenticeship				•									•												
Electrical Technology					•								•	•					•	•					
Electrical Plant Maintenance													•												
Electronics Technology													•	•						•					
Forestry-Wildlife Management																								•	
Horticulture					•								•						•						
Industrial and Commercial Trades								•					•												
Mechanical Design													•												
Plumbing Apprenticeship											•		•							•					
Power Plant Technology													•												
Welding Technology													•	•					•	•				•	
Utility Line													•						•					•	
Pre-Vocational Program																									
Green Bootcamp				•									•						•	•	•			•	
Safety			•															•	•	•	•			•
